99375	<p>Home Based Therapy Services for Children, Adolescents, & Families: This service is to provide home based, goal focused psychotherapy and /or counseling by licensed, of if non-licensed then under the supervision of a licensed provider (e.g., Ph.D. level or Masters level LPC, LMSW-ACP, or LMFT) for children, adolescents and families. These services are intended to help prevent clinical deterioration that in the absence of such intervention may lead to hospitalization. It may also be used for Members that demonstrate Medical Necessity for outpatient care, but have a history of negligence, non-compliance or no-show. These Members, without such intervention, may display increasing deterioration that could result in more intensive interventions at a later date. Services include treatment plan development, therapy and/or counseling, clinical records and progress reports. May, with authorization from CompCare) for a 30 day period), be provided in conjunction with a physician visit or pharmacy management.</p>	<p>PHYSICIAN SUPERVISION OF A PATIENT UNDER CARE OF HOME HEALTH AGENCY (PATIENT NOT PRESENT) REQUIRING COMPLEX AND MULTIDISCIPLINARY CARE MODALITIES INVOLVING REGULAR PHYSICIAN DEVELOPMENT AND/OR</p>	<p>JACHO, COA, CARF, Credentialed Professional</p>	<p>Best Practice based on WRAPAROUND & Systems of Care</p> <p>MCO behavioral health subcontractor monitoring based on OTR and Outcomes measure.</p>	<p>Determined by clinical need based on provider request</p>

104BH	Respite Services, Home Based: Respite care in the home provides relief for parents and/or caregivers, and a measure of structure during times of stress, through the presence of a paraprofessional in the home for brief periods. May be used to 'change up the milieu' within the home through introducing the therapeutic presence of a paraprofessional. Respite care can be planned/scheduled in advance or arranged for in conjunction with other professional therapy services on a crisis management basis	RESPITE SERVICES (IN HOME)	JACHO, COA, CARF, Credentialed Professional	Best Practice based on WRAPAROUND & Systems of Care MCO behavioral health subcontractor monitoring based on OTR and Outcomes measure.	Determined by clinical need based on provider request
120BH	Extended Day Treatment Program, MH and Dual Diagnosis: Intensive site based, age appropriate services provided to individuals who require services in order to control symptoms and prevent hospitalization or to reduce the amount of time spent in a hospital. Services focus on intensive medically oriented multidisciplinary interventions such as behavior skills training, crisis management, and symptom management that are designed to stabilize acute psychiatric symptoms. Program must operate the equivalent of 4 hours per day / 5 days per week.	DAY TREATMENT PROGRAM PSYCHIATRIC (3-4 HOURS PER DAY)	JACHO, COA, CARF, Credentialed Professional	State of CT, DCF Extended Day White Paper implementation MCO behavioral health subcontractor monitoring based on OTR and Outcomes measure.	Determined by clinical need based on provider request

122BH	<p>24-Hour Respite Care, Facility Based: these services are intended to help prevent clinical deterioration that in the absence of such intervention may lead to a more intensive level of care, and may also be used as a step-down from more intensive levels of residential care. When used as a ‘first step’ residential intervention, the intervention serves primarily as an opportunity to stabilize a chaotic family situation which significantly threatens the child’s emotional stability, and to move the child and family toward productive involvement in outpatient therapy. As a step-down from a more intensive level f residential care, it may be used for a Member who either 1) now demonstrates Medical Necessity for the outpatient level f care, but who has a history of or a likelihood of deterioration when discharged from facility based services directly into outpatient services, or 2) has a family situation which is seriously dysfunctional and judged not yet ready to effectively receive the child back into the home. May be effectively substituted for Partial Hospitalization in the case of (1) above. Services include treatment plan development, group counseling within the milieu, case management and discharge planning with the family, clinical records and progress reports. Fees do not include family and individual therapy by licensed clinicians. Fees for the assessment and treatment of acute physical/medical illnesses and conditions occurring while the child/adolescent is in residence, and pharmacy fees to cover filling of prescriptions, are Non-Covered Services which may be billed separately to the applicable Health Plan.</p>	24 HOUR RESPITE, FACILITY BASED	JACHO, COA, CARF, Credentialed Professional	Best Practice based on WRAPAROUND & Systems of Care MCO behavioral health subcontractor monitoring based on OTR and Outcomes measure. Y1500	This low intensity fee-for-service option applies to in-home visits for individual psychotherapy, parent guidance, and family therapy. The service is intended to be a low-intensity adjunct to outpatient care, independent brief treatment, and/or maintenance of gains following the provision of a higher level of home-based care (Levels I – IV) or mobile crisis outreach.	LOW INTENSITY IN-HOME VISITS FOR INDIVIDUAL PSYCHO THERAPY,PARENT GUIDANCE,AND FAMILY THERAPY. ADJUNCT TO OUTPATIENT CARE-INDEPENDENT BRIEF TREATMENT.	JACHO, COA, CARF, Credentialed Professional YICAPS Network Provider	Best Practice based on WRAPAROUND & Systems of Care MCO behavioral health subcontractor monitoring based on OTR and Outcomes measure.	Determin ed by clinical need based on provider request
Y1501	Children eligible for this level of service from YICAPS are those for whom traditional outpatient therapy is insufficient to maintain adequate functioning. Stabilization of these patients requires a more intensive intervention than traditional outpatient treatment is able to provide. The YICAPS team provides <u>four to five hours per week</u> of case management and family treatment for children and families. Family guidance, behavioral management and resource coordination is the focus of the intervention. Some children and families will enter the YICAPS service at this level, others will use this phase as a transition between more intensive levels of intervention and full integration of the child into home and community settings.	LEVEL I CASE MANAGEMENT AND FAMILY TREATMENT FOR CHILDREN AND FAMILIES (4-5 HRS PER WK). FAMILY GUIDANCE,BEHAVIORAL MANAGMENT AND RESOURCE COORDINATION.	JACHO, COA, CARF, Credentialed Professional YICAPS Network Provider	Best Practice based on WRAPAROUND & Systems of Care MCO behavioral health subcontractor monitoring based on OTR and Outcomes measure.	Determin ed by clinical need based on provider request

Y1502	<p>Children eligible for this level of service from YICAPS are those who have experienced symptom escalation and are at risk of placement into more restrictive settings. Effective clinical treatment of these children requires a home-based team intervention of <u>six to eight hours per week</u>. Services will include a psychiatric assessment of the child and the development and implementation of a child and family treatment plan. The YICAPS team will assist the family to meet the mental health needs of the child through the use of <u>extended family therapy</u>, behavioral management and case management. Individual child psychotherapy can be provided if needed.</p>	<p>LEVEL II HOME BASED TEAM INTERVENTION (6-8 HRS PER WK). INCLUDES A PSYCHIATRIC ASSESSMENT OF THE CHILD AND THE DEVELOPMENT AND IMPLEMENTATION OF A CHILD AND FAMILY TREATMENT PLAN.</p>	<p>JACHO, COA, CARF, Credentialed Professional YICAPS Network Provider</p>	<p>Best Practice based on WRAPAROUND & Systems of Care</p> <p>MCO behavioral health subcontractor monitoring based on OTR and Outcomes measure.</p>	<p>Determined by clinical need based on provider request</p>
-------	--	--	--	---	--

Y1503	<p>Children eligible for this level of service from YICAPS are those who have experienced symptom escalation and are at risk of placement into more restrictive settings. Effective clinical treatment of these children requires a home-based team intervention of <u>nine to twelve hours per week</u>. Services will include a psychiatric assessment of the child and the development and implementation of a child and family treatment plan. The YICAPS team will assist the family to meet the mental health needs of the child through the use of family therapy, behavioral management and <u>extensive case management and advocacy</u>. Individual child psychotherapy can be provided if needed.</p>	<p>LEVEL III HOME BASED TEAM INTERVENTION (9-12 HRS/ WK). INCLUDES A PSYCHIATRIC ASSESSMENT OF THE CHILD AND THE DEVELOPMENT AND IMPLEMENTATION OF A CHILD AND FAMILY TREATMENT PLAN.</p>	<p>JACHO, COA, CARF, Credentialed Professional YICAPS Network Provider</p>	<p>Best Practice based on WRAPAROUND & Systems of Care</p> <p>MCO behavioral health subcontractor monitoring based on OTR and Outcomes measure.</p>	<p>Determined by clinical need based on provider request</p>
-------	--	---	--	---	--

Y1504	<p>Children eligible for this level of service from YICAPS are those who would otherwise require extensive psychiatric services including inpatient and / or partial hospitalization. At this level of comprehensive clinical intervention, the intensive outpatient team will provide <u>thirteen to twenty hours</u> of home-based treatment and case management service per week. At a minimum, services will include a comprehensive psychiatric evaluation, family therapy, case management, intensive behavioral management, parent training and medication management, when appropriate. Although some of the children referred to this level of intensity may have already existing treaters, YICAPS will assume responsibility for clinical formulation and treatment planning in each case and will work collaboratively with those professionals already involved.</p>	<p>LEVEL IV HOME BASED & CASE MANAGEMENT (13-20 HRS/ WK). INCLUDES A COMPREHENSIVE PSYCHIATRIC EVALUATION,FAMILY THERAPY,INTENSIVE BEHAVIORAL MANAGEMENT, PARENT TRAINING & MED MGMT.</p>	<p>JACHO, COA, CARF, Credentialed Professional YICAPS Network Provider</p>	<p>Best Practice based on WRAPAROUND & Systems of Care</p> <p>MCO behavioral health subcontractor monitoring based on OTR and Outcomes measure.</p>	<p>Determined by clinical need based on provider request</p>
-------	---	---	--	---	--

<p>AFP (One Time Agreement)</p>	<p>Authorizations for Payment (AFP) are completed when the need arises for a member to see a provider that is out of the current network. If a member presents with a special medical need that no provider in our network can accommodate or if those providers we do have can not see the member within the time frame that the member needs to be seen, an AFP can be processed. An AFP allows the provider to deliver services to a member for one determined period of time, usually one month.</p>	<p>The provider's information is loaded into the system so that the provider can see a particular member for specific services for a set period of time. This allows an authorization for those services and the payment for those services to be processed through our system. We can then follow the history of the member's treatment.</p>	<p>The provider must supply CompCare with a copy of his/her license, malpractice insurance, and DEA if applicable. The provider must also supply a signed W-9 with a tax id number or social security number.</p>	<p>Program Standard appropriate to the intervention</p> <p>MCO behavioral health subcontractor monitoring based on OTR and Outcomes measure.</p>	<p>Determined by clinical need based on provider request</p>
